About me

UI Developer with experience in building responsive, user-centric interfaces. Skilled in HTML5, CSS3, JavaScript, Bootstrap 5, and Tailwind CSS, with a strong grasp of UI/UX principles. Capable of translating wireframes into pixel-perfect components and assisting in frontend development using basic Angular (components, templates, data binding). Experienced in cross-functional collaboration to deliver seamless user experiences.

Education

Pillai College of Arts, Commerce and Science 2023-2025

Completed a Master of Science (MSc) in Information Technology.

Pillai College of Arts, Commerce and Science 2020-2023

Graduated with a Bachelor of Science(BSc) in Computer Science.

Dynan Pushpa Vidya Niketan 2018 - 2020

Completed higher education in the science stream.

St. Joseph High School 2018

Completed with a strong emphasis on core subjects including Mathematics, Science, and English.

Work Experience

UI/UX Developer | Advin Softwares Pvt Ltd | 28/05/2025 — Present

Designed responsive, user-friendly interfaces using HTML5, CSS3, JavaScript, Bootstrap 5, Tailwind CSS, and AOS. Converted Figma wireframes into pixel-perfect UIs and assisted with frontend development using basic Angular (components, templates, data binding).

MS Creative (Jr Graphics Designer)

Experience in graphics work, where I developed creative graphics for various projects, collaborated with clients to understand their needs, and utilized design software to create visually appealing materials.

Oasis Infobyte (Graphics Designer Intern)

Successfully completed tasks assigned by clients, delivering creative graphics that met their requirements and expectations.

Courses

UI/UX -

Great Learning (June, 2023)

Modernizing Python Applications -

Infosys Springboard (June, 2024)

ReactJS -

Infosys Springboard (October, 2024)

Angular -

Infosys Springboard (January, 2025)

My Projects

Nishwik Global Fintech

Designed and prototyped scalable UI/UX in Figma for Nishwik Global Fintech across modules including school management, hospital services, housing society, real estate, and pay-later systems. Delivered responsive web and mobile experiences, supported developers with basic Angular implementation, and successfully deployed projects for early-access release, reducing development time.

Attendance Management System

Attendance System using QR and OCR.

Medical E-Commerce Site

E-Commerce built using PHP and SQL
